

CUBA

Recap: July 2015 Cuba and Panama Missions

The **GO Team** comprised Reverendo Dario Bejarano Domínguez, Reverenda Nincy Bejarano Domínguez, Dr. Dennis Nelson, Pastora Laura Rand, and Prophet Rusty Russell.

The purpose for the Cuban conference was to raise up leaders and send them just as Jesus sent the disciples: "The harvest is plentiful, but the laborers are few; therefore pray earnestly to the Lord of the harvest to send out laborers into his harvest" (Mat. 9:1-38). We wanted to encourage the leaders to go with the message of the Gospel and to minister as Jesus commanded, with compassion through the confirmation of signs and wonders. Rusty began the mission earlier by going to Panama to conduct a men's retreat.

Monday: This was a day of travel to Cuba and was also the day USA and Cuban governments announced the opening of Embassies after 56 years. The title for the conference was "Los Enviados"...we came as envoys...sent by God to minister in signs - wonder - miracles - liberations. Laura, Rusty, and I brought in 280 conference booklets and 200+ bible studies printed in Spanish. Although,

the bags were searched the immigration official seemed very apologetic and after getting her supervisors' OK and a call to the authorities she moved us to the front of line to enter Cuba! God had opened the door into this nation of 11 million souls.

Tuesday: This morning I awoke early and began organizing my luggage to discover a tarantula in my bag. Yes, I did scream and my roommate, Dario, helped me relocate the critter back to the jungle. On the spiritual side Dario had awoken in the middle of the night and sensed something was wrong, a darkness had entered the room so he prayed for protection. I told him if he awoke again to wake me and I would join in prayer! Today was the first day of the conference with over 300 attendees of all ages with about 40 pastors/leaders and many youth. I spoke on how God wants us to take leaps that increase our faith and dependence upon Him. After Rusty's message, the team prayed for those needing healings. I prayed for a man who had previously fallen six stories from a building. His whole right shoulder, side, and ribs were crushed. God came upon him and began a healing and restoring work into his joints and bones, by the end of the prayer he was able to raise his right arm above his head...Amen...Glory.

Wednesday: Dario woke me up at 3:32am to pray. He sensed that two spirits of darkness were trying to attack our team so we joined in prayers lifting up declarations of praise and protection from any and all evil. God showed me He had placed an umbrella of spiritual protection around the whole team and those at the conference. (Pastora Nincy told us at breakfast that she had the same sense and also prayed that early

morning.) This morning Rusty spoke on how the gifts of healings and miracles are testimony to Christ's love and compassion to the world. God directed him to call forward people needing healing for lower back and legs, eye sight problems (cataracts), hemorrhoids, and more. We lined up all those with back pain in chairs and I picked the man in the middle lifting up his legs we could see the one leg was longer than the other...the back was out of alignment so I prayed and the leg grew and straightened the back and the length of his feet were the same...I then had him pray for the next person and then the next. Soon those who were healed first started to pray for those needing a miracle. They took their faith and applied it to those around praying for legs to grow and backs to straighten. That afternoon we divided into men's and women's groups and I taught about how David's sin with Bathsheba was not just adultery but how he broke all ten of God's commandments. I stressed that King David should not be remembered for all these sins he committed but that he knew how to get RIGHT with God. David knew his sin was ultimately against God and

needed to be restored through a cleansing of the heart. I asked if any men wanted to be like David and had over 100 come forward to clean their own hearts. That evening we encountered another attack...Rusty reported: "I led the Spider Patrol when his buddy showed up at Pastor Laura's door

late one night when she was trying to get into her room! Plastic Coke a Cola bottles half full are lethal weapons to tarantulas!" We decided not to repatriate this one to the jungle.

Thursday: This morning Dairo awoke again at 3:30am to see if I was awake and I was. He said he had a dream with a witch holding a forked tailed black and yellow snake and was trying to hinder and stop this days meetings. We joined and prayed for this witches salvation and that any spell or power cast towards the team and people would be impotent. After prayer, Dario and I both felt the infilling of the Holy Spirit and that we would minister together on another mission. At the camp a great outpouring from God descended with over two hours of singing and worship to the Lord. (I believe this is what the evil forces wanted to stop.) That afternoon we gave the non-pastors extra time to play baseball, swim in the bay, and play. The pastors and spouses were called for a time of prayer and encouragement as we divide them into five groups in order that we could pray for each one individually, anointing them with holy oil, and exhorting them.

Friday: Pastors Nincy and Dario prepared the hearts of the people for communion while Rusty and I walked around the meeting center. I saw several angelic clouds in the sky and Rusty was getting revelation about the Godly signs and messages around the camp. During worship I had a man,

Jose, try to teach the Cha Cha Cha. Laura and I visited the 30 or so children under the age of 11 bringing the book *Heaven is Real* in Espanola. One of the teachers presented the book with Laura and I then praying a blessing over every child. Laura, who's in country connections,

enabled the mission said our thanks to all. Rusty closed the conference with all entering the presence of Lord through communion.

Saturday: on our visit to Habana our van was stopped at a security check point and it appeared that we were having trouble so we prayed for passage and the our driver gave the police some \$...we drove past the harbor were sinking of the USS Maine sparked the Spanish American War. I found it very interesting that in the

1960s an statue of Jesus was erected at the front entrance to the harbor. We then toured the city squares and tourist market. That night from 8-10pm, Rusty, Laura, and I visited our translators church about the importance of forgiving of others.

On Sunday: the Team was sent to three different churches. Laura had arranged for a special women's meeting and with 40+ attendees. Dario and Nincy were sent to a very remote church that only had a tin roof overhead and had to walk two miles from the car to the meeting. I (Dennis) was sent to a church of about 45 people some of whom I had prayed for the leaders while at the leadership camp. During worship I felt Jesus' arm around me and I was given a vision. I saw five different angelic faces. God told me that these angels had been dispatched for ministry and the protection of this church. I then spoke on the four different heart soils and the one seed of God. I was led to call the church leaders forward and prayed for a special anointing from the fire of the Holy Spirit. God moved with tremendous anointing many were healed and responded to the message. In closing the pastor called forward those who were being called to the mission field and over 15 of the 45

responded to God's call to become missionaries. Then during the closing song of praise my translator asked if I would pray for one more person. An elderly woman came with her white stick, she was totally blind. I prayed and the anointing of the Holy Spirit came. I asked if she could see and she responded, "NO!" I asked if she could see anything and the woman said she saw a bright light flash. So, I

prayed a shorter prayer and being led to place my thumbs over here eye lids I then asked that she open her eyes. She dropped her stick and profusely kissed me and our team as both her eyes came open! "I can see! I can see!" Glory to the King of Kings. On our return we stopped at my translators grand papa's house who was not feeling well. He was a retired Mennonite minister and need prayer for a stomach pain. We prayed and he was healed.

That afternoon we visited property the local church had been given to replace one that have been taken earlier. This is the first land and new church construction in over 50 years. This day, July 26th, marked the 56th anniversary of the Communist Revolution and we were asked to pray over the property. We brought along salt and holy oil to make a covenant and dedication to the land.

Afterward Rusty and I had time for a Cuban hair cut from our new neighbor. Who happened to be a former English teacher.

Monday: on Dennis' Flight from Miami back to Chicago: It is always good to reflect and see what was accomplished through the long mission. Our mission goals were to minister in Panama and Rusty saw many men's

lives changed. The team imparted faith and trained the Cuban leaders through healings and liberations. We were able to minister directly to the men and women's individuals needs and impart and pray for the youth. Rose and Bob Weiner provided over 200 a special editions of the foundation of faith bible studies. The Colombian church wants to sponsor some missionary couples from Cuba to pastor churches in Colombia. While, Rusty, Laura, and I have been invited back to Cuba.

God gave me in a vision on the plane home showing me two angels He had and will dispatch upon my request...one was a dark skinned angel and the other was not a kid but had the youth look and spirit of a young child...my Norseke...in me had trouble understanding so I asked for a confirmation...he showed me a black man's face three times on the airplane world map (day/night display)...things that come in threes often mean God has ordained it...I believe these angels were with me in Cuba... and then God had me pick up my luggage at baggage claim #7 (Rusty also picked up his luggage in FL at carousel #7). In the bible number seven signifies the completion or finishing...our mission was now complete.

Rusty's Recap: I am back from CUBA and Panama! I GOT TO RELAX FROM WIFI since CUBA has NO Internet! Culture shock for me! But I was able to move in more peace! 60/60/64 ---- 60 years ago my Father Dr. Hank Russell ministered in CUBA, now CUBA is My 60th Nation of Mission and I am 64! Glory to Jesus! But God was rich in His mercy when we prayed and shared our teachings at the Pastors Conference and the Churches we spoke at. We prayed and God confirmed with signs and wonders and miracles! Blind eyes opened the deaf healed and many answered saying, "I have that I want to be free!" Many received an instant miracle! The Prophetic words released by our Team caused faith and renewed hope to arise in many. Some new souls received Jesus as their Lord and savior and ministers were encouraged. Sunday night we received 3 men who made Jesus their Lord! The music was loud as many were rejoicing since this is the Liberation day or National Day for CUBA. My trousers were vibrating from the sound, then the glory of God came down with miracles! The last man I prayed for had thick glasses, I prayed for sight healing, Dennis stood on a chair above the crowd holding up fingers and the man said, "Dous! 2 Quattro 4! As his eyes became clear!" Thanks for your prayers and good thoughts sent our way! We could feel them and were never in danger! It is good to be home with my lovely wife if only for a week before I go to Asia to continue the "Rusty Russell Friendship Tour 2015!"

Reverendo Dario Bejarano Domínguez, Reverenda Nincy Bejarano Domínguez, Dr. Dennis Nelson, Pastora Laura Rand, and Prophet Rusty Russell all want to extend our gratitude to those who prayed and contributed to these Cuban and Panama missions. As part of the team and as King David commanded, you have an equal share in these rewards! AMEN!!!
